### **DETAILED ACTION**

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 2-17 have been renumbered 38-53.

### ***Election/Restrictions***

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a) figure 1 and 2,
- b) figures 3-7,
- c) figure 9 and 10,
- d) figure 11,
- e) figure 12,
- f) figures 13 and 14,
- g) figure 15 and 16,
- h) figure 17,
- i) figure 18,
- j) figures 19-22,
- k) figures 23-25,
- l) figures 26-31,
- m) figure 32,
- n) figure 33,
- o) figure 34,
- p) figure 35,

- q) figures 36 and 37,
- r) figure 38,
- s) figure 39 and 40,
- t) figure 41,
- u) figure 42, and
- v) figure 43.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3763

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

3. A telephone call was made to Steven Nataupsky on August 11, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cris L. Rodriguez whose telephone number is 571-272-4964. The examiner can normally be reached on 7:30 am - 4:00 pm.
